Yoav Katz

Software Engineer

I bring a strong balance of independent problem-solving and effective collaboration, with the ability to learn quickly, and consistently meet deadlines. I thrive in both individual and team environments.

Currently in the final semester of my Software Engineering degree, I will be available for full-time roles in about three months.

Projects

MERN Real Estate website

[GitHub](#)

A robust real estate platform using the **MERN** stack with **Tailwind CSS**, **JWT**, **Firebase**, and **Google OAuth**.

Computerized Test Management System

[GitHub](#)

A system that performs various actions on tests given at colleges using **MySQL**, **Java** and **JavaFX**.
